Step Six: Improvisation The final step is to combine the techniques mentioned so far as you begin to improvise freely. Guitare Tab This is somewhat similar to the previous entry, with the only difference being that the homepage also displays top community-rated tabs. For many students, improvisation seems so intimidating that they feel the need to run from it. If you can relate to this, then this Quick Tip is for you. This technique also sounds great in the upper register of the piano. Try playing the 8th note exercise below. We'll see you next time! Blog written by Michael LaDisa / Quick Tip by Jonny May If you enjoyed today's lesson, you may also enjoy the following courses: Thanks for learning with us today. Afterward, you can choose one of our Learning Tracks according to your current playing level and musical interests to build up your foundation. To prepare to improv, try playing the left hand "4 On The Floor" groove with the backing track included with this lesson. What is a common tone? For this reason, today's lesson uses a 4 note blues scale called a "Beginner Blues Scale." These four notes can be played from a single hand position using the fingering indicated above. In fact, speaking always precedes reading in language learning. So don't worry right now if you cannot read both treble and bass clef. Since your left hand is playing quarter notes, that means you will need to play 2 notes in the right hand for every 1 chord played in the left hand. There are two general types of lines—uplines and downlines. In this absolutely free program you will receive 5 free videos via email in which you will learn even more hallmark blues piano techniques including how to improvise in lower position and upper position, a left hand blues shuffle, the 12-bar blues form and more. To play a slide, you will literally slide your finger from a black key to a white key. However, it is not unusual for some chord progressions to contain two or more common tones between consecutive chords. On the down side, that means some of the free guitar tabs are bad. You can more easily navigate the notes that move from chord to chord without looking by keeping your fingers in contact with the notes that do not move. For example, in the exercise below, you will use the middle finger to play Gs and then slide the middle finger down to F. As you can see, there is a lot you can do with just 2 chords and 4 notes that sounds very good! With just a little trial and error, you can be improvising beginner blues piano in no time. It is important to have variety in your improv or it will sound like a scale exercise. Secondly, remember that you can repeat a note several times before going up or down. The basic chords and scale presented in this lesson are limited in scope so that you begin to explore improvisation immediately. However, for the absolute beginner, a full blues scale can pose a challenge because it contains 6 notes to be played by 5 fingers. As you begin to improvise, there are some important considerations to keep in mind. Becoming aware of common tones reduces the frequency with which a pianist must look at their hands. Everything in today's lesson can be learned by imitation.) This groove is known as a "4 On The Floor" groove, and it is common to blues and jazz piano styles. To make quick progress, watch the video deliberately to grasp how to transition between each chord. As community-based sites, some of the free guitar sheet music sites have rating systems for

users to vote for tab versions they like. Ultimate Guitar This free guitar tabs website is easily the most popular among the guitar sites. A common tone is a note that is shared by consecutive chords in a chord progression. You can access the backing track and lesson sheet from the bottom of this page after logging in with your membership. As of December 2018, the website has a little more than 1,100,000 free sheet music for guitars. Try playing the progression above again using the fingerings indicated in the left hand. The only catch is that you have to give them a "Like" on their social media pages to access some of the tabs. You can do this by adding rests, but also by adding longer notes such as half notes. With such an immense collection of tablature, you can find sheet music for your favorite songs in different arrangements, versions and even genres. One of the downsides to this site is it doesn't have a print feature on the actual tab page. MORE FROM QUESTIONSANSWERED.NET Quick Tip Instructor Jonny May Learning Focus Chords Improvisation Scales Music Style Get free weekly lessons, practice tips, and downloadable resources to your inbox! One of the greatest joys of studying music happens when you develop the ability to play music that sounds good. However, too often students spend countless hours in practice without enjoying their output. Afterward, you'll be ready to try improvising your own triplet lines. What a cool sound! This immediately takes your sound to the next level. Once you feel comfortable playing this exercise with the backing track, you are ready to try some improvised 8th note lines. 911 Tabs This site is like Google for guitar sheet music. You can also transpose this lesson into any key using our Smart Sheet Music. The goal is simply to engage in the creative language acquisition process through improvisation. Firstly, try playing lines in different directions. In actuality, we encourage you to run to it! That's right, the sooner you start improvising, the more natural it will become for you. It may not look like much, but it provides you with an alternative source of free sheet music. You don't even need to read music. Step One: 2 Blues Piano Chords As a beginner, you can get started playing blues piano with only 2 chords. If you are enjoying this lesson, you will certainly love our 10 Day Blues Challenge. One obvious advantage of this site is you can search for the guitar tabs and then practice anywhere as long you as you have your phone, an internet connection and your guitar with you. The chords you will need to get started are Cm7 and F7. Over time, the ability to read music serves students very well, but a balanced approach should encourage students to explore playing sounds that are beyond their current ability to read. Slides are a blues ornament that adds flavor to your sound. In fact, you'll only need the following ingredients: 2 left hand chords 4 right hand notes That's right, with just these few ingredients, you will be able to play beginner blues piano licks that will take you back to the reason we all started studying piano in the first place—to play! And if you are reading this and you haven't formally started playing piano yet, today's lesson is the perfect place to begin. The good news is the internet is teeming with sites where you can search for music, and much of that music is free. Can you switch between Cm7 and F7 without looking at your hand? The most common note value used in blues piano improv is 8th notes. Both notes should be played with the same finger. For example, did you notice that the notes C and E♭ are common tones in Cm7 and F7? Here are some examples for you to try. You have to copy and paste the sheet music into a document if you want to print it. Inevitably, this requires additional skills such as crossing the thumb under the when ascending and crossing the 3rd finger over when descending. Not all consecutive chords in a chord progression contain a common tone. If you're still in the process of learning how to play the guitar, then this website would be a good place to look for music. It also has a straightforward homepage that is smartphone friendly where you can do your search. The key is to go to sites that are popular for featuring free sheet music that ranges from good to exceptionally accurate. In today's lesson, you will learn 6 steps that you can use right now to play beginner blues piano improv that sounds really good! It won't be long before you are able to apply these 6 steps to play pro sounding blues piano licks. Not only does it have tons of free video tutorials you can watch at your convenience, it also has a large collection of free sheet music for guitars you can download and print out. However, it's just a small inconvenience in exchange for free lessons and tabs. CCO/Pixabay/Pixabay As you begin to learn to play the guitar, you want to find sheet music for the songs you want to play. (We have included notation with alpha-noteheads for these chords as a reference and to recommend specific fingerings, but if you are continually referring to the notation, you are likely to miss the point. Setting this groove on autopilot in your left hand will free you up to improvise bluesy piano licks in your right hand. You can add slides to both 8th note and triplet lines. Free guitar tabs are submitted to sites by thousands of users all over the world. Guitar Tabs Another good website with a large collection of free sheet music for guitars, it has a no-frills, straightforward homepage. Step Five: Finger Slide Blues Exercise If you really want to capture an authentic blues piano sound, then you will want to add finger slides ("slides" for short). Remember, at this stage it is not recommended or even helpful to evaluate your improvisation anymore than it would be to critique a baby's first words. Apart from the user submitted tabs, you can also find official tabs, sheet music for bass, ukulele and backing tracks for pro users. The common tones function like tactile anchors for your fingers. Great job! You can also play this exercise by beginning on the G♯ and then descending down to C and back up. Thirdly, be sure to leave gaps between your lines. You can immediately type the song to get its tabs, scroll down the collection of top 25 sheet music or browse the most recent updates. Let's get started... Beginner Blues Piano Approach Today's lesson covers three essential concepts for playing blues piano: chords, scales, and improvisation. Step Two: Beginner Blues Scale for Piano Nearly all blues methods teach blues scales as a point of entry for improvisation. As you'll see in the next section, you can create some truly classic blues lines using only these four notes! Step Three: 8th Note Blues Exercise Next, we want to prepare you to improvise with the Beginner Blues Scale. Step Four: Triplet Blues Exercise Our next exercise focus specifically on mastering triplets, which is the 2nd most common duration in blues soloing. Triplets are great for adding energy, excitement and variety to your lines. In this exercise below, you will play 3 notes in the right hand for every 1 chord in the left hand. To start out, you just need to be able to memorize these two chords by their shape and sound.
