Don't be confused with Google Store or Google Pay. Google Play screenshots Digital Distribution Service Google Play Store on WebDeveloper (s) GoogleInitial ReleaseOctober's 22, 2008; 12 years ago € (2008-10-22) (like Android Market) on 6 March 2012; 9 years ago € (2012-03-06) (like Google Play) Release Stable 25.3.32 [1] Platformandroid, Android TV, Wear OS, Chrome OS, WebTepedigital Distribution, App Store, Furniture Games Store, Video On Demand, EBOOK STORE STORE MUSIC STORE (closed in December 20, 2020) website website.google.com Google Play, has also branded like Google Play Store and previously Android Market, is a digital distribution service managed and developed by Google. It serves as an official App Store for certified devices running on the Android operating system and its derivatives, as well as Chrome OS, allowing users to browse and download applications developed with the Android software development kit (SDK) and published via Google. Google Play also acts as a digital media store, offering music, books, movies and television programs. [2] You can access content purchased on Google Play Movies & TV and Google Play Books on a web browser and through the Android and iOS apps. Applications are available via Google Play both free or at a cost. They can be downloaded directly to an Android device through the proprietary mobile Play Store app or distributing the application to a device from the Google Play website. Applications using a device's hardware functionality can be addressed to device users with specific hardware components, such as a movement sensor (for movement loading games) or a front camera (for online video call). The Google Play archive has had over 82 billion app downloads in 2016 and has reached over 3.5 million apps published in 2017, [3] while after a bleed of App it returned to over 3 million. [4] It has been the subject of multiple security problems, in which the malicious software has been approved and loaded into the store and downloaded by users, with various degrees of gravity. Google Play was launched on 6 March 2012, bringing together an Android and Google market under a brand, marking a movement in the Google digital distribution strategy. The services included in Google Play are interrupted in favor of YouTube music in December 2020. After their re-branding, Google has gradually expanded geographical support for each of the services. Content Catalog Android Applications More Information: Android (Operating System) Global Availability of Google Play By 2017, Google Play featured over 3.5 million Android applications. [3] [5] After Google spurned many apps from Google Play Store, the number of apps increased by over 3 Android applications. [4] [6] Starting from 2017, developers in more than 150 locations could distribute apps on Google Play, although not all positions support the registration of the merchant. [7] Developers receive 70% of the application price, while the remaining 30% goes to the distribution partner and operating commissions. [Necessary quote] Developers can create sales, with the original impressed price and a banner below by informing users when selling ends. [8] [9] Google Play allows developers to release the early versions of the apps to a selected group of users, such as alpha or beta tests. [9] Users can pre-order selected apps (as well as movies, music, books and games) to get items delivered as soon as they are available. [10] Some network vectors offer billing for Google Play purchases, allowing users to opt for expenses in the monthly phone bill rather than credit cards [11]. Users can request refunds 48 hours after a purchase. [12] Games Main article: Google Play Games at the 2013 Google I / O developer conference. Google announced the introduction of Google Play Games. [13] Google Play Games is an online gaming service for Android that offers multiplayer game features in real time, clear, social and public public And the achievements. His standalone mobile app was launched on July 24, 2013. [14] Book's main article: Google Play Books Global Availability of Google Play Books Google Play Books is a digital ebook distribution service. Google Play offers over five million ebooks available for purchase, [15] and users can also upload up to 1,000 of their ebooks in the form of PDF or EPUB file formats. [16] Starting from January 2017 [Update], Google Play Books is available in 75 countries. [17] Film and TV Show main article: Google TV The global availability of Google Play Movies and TV Google Play Movies & TV was a video service on request that offers movies and television programs available for purchase or rental, a second of the availability. [18] Starting from January 2017 [update], the films are available in over 110 countries, while television shows are available only in Australia, Austria, Canada, France, Germany, Japan, Switzerland, United States and the United Kingdom. [17] In October 2020, Google Play movies and TV have been renamed Google TV. Pass Pass Main article: Google Play Pass Global Availability of Google Play Pass September 23, 2019, Google launched its Google Play Pass and Apps Appps subscription service in the United States. [19] [20] Starting from September 2019, subscribers could access games and apps without advertising and in-app purchases. The program is invitation, only for app developers, which can therefore integrate the service to their existing apps. [21] Google device updates introduced the Mainline project project in Android 10, allowing you to update the basic OS components via the Google Play Store, without requiring a complete update of the system. [22] [23] Android 10 supports updates for the main components of the basic operating system, including: Security: Multimedia Codecs, Multimedia Framework Components, DNS Resolver, Privacy DNS: UI Documents, Authorization Controller, ExtServices Consistency : time zone data, angle (Opt-in developers), module metadata, component networking, captivity portal login, configuration for network authorization [22] on December 4, 2019, Qualcomm announced that their Snapdragon 865 supports Updated GPU drivers via Google Play Store. This feature was initially introduced with Android Oreo, but the suppliers have not yet added support. [24] Teacher approved in 2020, Google launched a new "approved" section of the teacher focused for children for the Google Play Store. Apps marked as "approved teachers" meet higher approved standards for educational purposes. [25] [26] History former Google Play Logo, 2012 Google Play (previously in Google Play style) originated from three distinct products: Android Market, Google Music and Google eBookstore. [27] Android Market was announced by Google on 28 August 2008, [28] [29] and was made available to users the à €
